faxpak provides Group 3 facsimile capabilities to networked SUNs and XENIX 2.3.2 and compatible systems. Supports SIERRA type modems such as WORLDPORT's 2496 and "Class Two" modems.

File Formats: • Plain ASCII • T_EX and L^AT_EX¹ • POSTSCRIPT text and graphics • SUN raster and other bitmaps • Easily extended to any bitmap or file format.

Configurable Options: • Multiple phone lines • View received faxes on screen • Aliases, distributions lists, batch jobs • Complex permissions scheme or unrestricted access • Departmental or system wide "cover pages" • Page numbering • Pasting up of bitmaps • Restriction of transmissions to "off peak" rates • "Pickup Mode" to avoid resending confirmed pages after errors • Accounting.

faxpak comes with a site licence and costs \$360. plus \$25 for shipping by AIR MAIL.. Details from: job ctl, Klaus Schallhorn, 28 Belgravia St., Penzance, Cornwall, TR18 2BJ, UK. FAX +44 736 330083, <faxinfo@cnix.uuxp>.

Publishing Companion® translates

WordPerfect

to

TEX or L^ATEX

IN ONE EASY STEP!

With **Publishing Companion**, you can publish documents using TEX or L^ATEX with **little or no TEX knowledge**. Your WordPerfect files are translated into TEX or L^ATEX files, so anyone using this simple word processor can immediately begin typesetting their own documents!

Publishing Companion translates EQUATIONS, FOOTNOTES, ENDNOTES, FONT STYLES, and much more!

TYPESET QUALITY WITH THE EASE OF WORD PROCESSING

TurboTEX

Typesetting Software

Executables \$150
With Source \$300

Now
Windows
Compatible!

NOW YOU CAN run the \TeX typesetting system in the powerful and convenient graphical environment of Microsoft Windows, with the new Windows-compatible Turbo \TeX Release 3.1.

Turbo \TeX brings you the latest \TeX 3.1 and METAFONT 2.7 standards and certifications: preloaded plain \TeX , \LaTeX , \AMS-TeX and \AMS-LaTeX , METAFONT, preview for EGA/VGA displays, Computer Modern and \LaTeX fonts, and printer drivers for HP LaserJet and DeskJet, PostScript, and Epson LQ and FX dot-matrix printers. This wealth of software runs on your IBM PC (MS-DOS, Windows, or OS/2), UNIX, or VAX/VMS system.

■ **Best-selling Value:** Turbo \TeX sets the standard for power and value among \TeX implementations: one price buys a complete, commercially-hardened typesetting system. *Computer* magazine recommended it as "the version of \TeX to have," *IEEE Software* called it "industrial strength," and thousands of satisfied users worldwide agree.

Turbo \TeX gets you started quickly, installing itself automatically under MS-DOS or Microsoft Windows, and compiling itself automatically under UNIX. The 90-page User's Guide includes generous examples and a full index, and leads you step-by-step through installing and using \TeX and METAFONT.

■ **Classic \TeX for Windows.** Even if you have never used Windows on your PC, the speed and power of Turbo \TeX will convince you of the benefits. While the \TeX command-

line options and \TeX book interaction work the same, you also can control \TeX using friendly icons, menus, and dialog boxes. Windows protected mode frees you from MS-DOS limitations like DOS extenders, overlay swapping, and scarce memory. You can run long \TeX formatting or printing jobs in the background while using other programs in the foreground.

■ **MS-DOS Power, Too:** Turbo \TeX still includes the plain MS-DOS programs. Even without expanded memory hardware, our virtual memory simulation provides the same sized \TeX that runs on multi-megabyte mainframes, with capacity for large documents, complicated formats, and demanding macro packages.

■ **Source Code:** The portable C source to Turbo \TeX consists of over 100,000 lines of generously commented \TeX , Turbo \TeX , METAFONT, previewer, and printer driver source code, including: our WEB system in C; PASCHAL, our proprietary Pascal-to-C translator; Windows menus and text-mode interface library; and preloading, virtual memory, and graphics code, all meeting C portability standards like ANSI and K&R.

■ **Availability & Requirements:** Turbo \TeX executables for IBM PC's include the User's Guide and require 640K, hard disk, and MS-DOS 3.0 or later. Windows extensions require Microsoft Windows 3.0. Order source code (includes Programmer's Guide) for other machines. On the PC, source compiles with Microsoft C 5.0 or later (and Windows SDK for Windows extensions), Watcom C 8.0, or Borland C++ 2.0; other op-

erating systems need a 32-bit C compiler supporting UNIX standard I/O. Media is 360K 5-1/4" or 720K 3-1/2" PC floppy disks (please specify).

■ **Upgrade at Low Cost.** If you have Turbo \TeX Release 3.0, upgrade to the latest version for just \$40 (executables) or \$80 (including source). Or, get either applicable upgrade free when you buy the AP- \TeX fonts (see facing page) for \$200!

■ **No-risk trial offer:** Examine the documentation and run the PC Turbo \TeX for 10 days. If you are not satisfied, return it for a 100% refund or credit. (Offer applies to PC executables only.)

■ **Free Buyer's Guide:** Ask for the free, 70-page Buyer's Guide for details on Turbo \TeX and dozens of \TeX -related products: previewers, \TeX -to-FAX and \TeX -to-Ventura/Pagemaker translators, optional fonts, graphics editors, public domain \TeX accessory software, books and reports.

Ordering Turbo \TeX

Ordering Turbo \TeX is easy and delivery is fast, by phone, FAX, or mail. Terms: Check with order (free media and ground shipping in US), VISA, Mastercard (free media, shipping extra); Net 30 to well-rated firms and public agencies (shipping and media extra). Discounts available for quantities or resale. International orders gladly expedited via Air or Express Mail.

AP-TEX Fonts

TEX-compatible Bit-Mapped Fonts
Identical to
Adobe PostScript Typefaces

If you are hungry for new TEX fonts, here is a feast guaranteed to satisfy the biggest appetite! The AP-TEX fonts serve you a banquet of gourmet delights: 438 fonts covering 18 sizes of 35 styles, at a total price of \$200. The AP-TEX fonts consist of PK and TFM files which are exact TEX-compatible equivalents (including "hinted" pixels) to the popular PostScript name-brand fonts shown at the right. Since they are directly compatible with any standard TEX implementation (including kerning and ligatures), you don't have to be a TEX expert to install or use them.

When ordering, specify resolution of 300 dpi (for laser printers), 180 dpi (for 24-pin dot matrix printers), or 118 dpi (for previewers). Each set is on ten 360 KB 5-1/4" PC floppy disks. The \$200 price applies to the first set you order; order additional sets at other resolutions for \$60 each. A 30-page user's guide fully explains how to install and use the fonts. Sizes included are 5, 6, 7, 8, 9, 10, 11, 12, 14.4, 17.3, 20.7, and 24.9 points; headline styles (equivalent to Times Roman, Helvetica, and Palatino, all in bold) also include sizes 29.9, 35.8, 43.0, 51.6, 61.9, and 74.3 points.

TEX FOR THE 90'S

Are you still
struggling with
PXL's, PK's or GF's?
Move on to scalable
fonts:

- Save megabytes of storage—entire VT_EX fits on one floppy.
- Instantly generate any font in any size and in any variation from 5 to 100 points.
- Standard font effects include compression, slant, smallcaps, outline, shading and shadow. New: landscape. New: scalable graphics.
- Discover the universe of MicroPress Font Library professional typefaces: not available from any other T_EX vender.

List price \$299

Includes the VT_EX typesetter (superset of T_EX), 10 scalable typefaces, VVIEW (arbitrary magnification on EGA, CGA, VGA, Hercules, AT&T), VLASER (HP LaserJet), VPOST (PostScript), VDOT (Epson, Panasonic, NEC, Toshiba, Proprinter, Star, DeskJet) and manuals.

S/H add \$5. COD add \$5.

WordPerfect Interface add \$100. Site licenses available.

Dealers' inquiries welcome. Professional typefaces available for older implementations of T_EX.

New T_EX Software

American Mathematical Society

NEW SOFTWARE RELEASES

The new release of *AMS-T_EX 2.1*, *AMS-L_AT_EX 1.1*, *AMSF_on_ts 2.1*, and the *Metafont Sources for all AMSF_on_ts* are **FREE** through the AMS electronic service e-MATH or on diskettes at **NEW REDUCED PRICES!**

AMS-T_EX 2.1

A new file, `amsptl.tex`, has been added to provide backward compatibility with documents written under `amspt.sty` version 1 but run with *AMS-T_EX 2.0* or later.

AMS-L_AT_EX 1.1

AMS-L_AT_EX provides advanced mathematics typesetting capabilities to a user familiar with the *L_AT_EX* environment. The complete Mittelbach/Schoepf font selection scheme in the `/ams/amslatex/fontsel` area is now available.

AMSF_on_ts 2.1

The 2.1 version of AMSF_on_ts has several enhancements. Euler and extra CM Fonts are now more bold and extended. AMSF_on_ts are available in the following resolutions: 118, 180, 240, 300, and 400 dpi.

CUSTOMER SUPPORT

e-MATH Access

Internet: support@e-math.ams.com

On Diskettes

The software files can be ordered from the AMS on Macintosh or IBM high-density, 5.25" diskettes (3.5 or low-density diskettes may be special-ordered).

Prices include shipping (first class domestic; airmail overseas).

ACCESS/AVAILABILITY

e-MATH Electronic transfer on Internet

AMS-developed T_EX software files have been posted to the T_EX archives on the Internet node e-math.ams.com (130.44.1.100) and are available for retrieval by anonymous FTP (file transfer), by those users who are on Internet. Metafont sources for all AMSF_on_ts and guidelines for preparing electronic manuscripts in *AMS-T_EX* and in *AMS-L_AT_EX* are also on e-MATH.

All macro files and fonts in the e-MATH archive can be used with any standard implementation of T_EX, regardless of the computer that T_EX is running on (micros, workstations, mainframes, etc.). [A special version of AMSF_on_ts 2.1 for use with textures on the Macintosh will be added to e-MATH in the near future].

Announcements of future incremental or major upgrades will be posted to the normal T_EX discussion lists. For more information contact support@e-math.ams.com.

ORDERING INFORMATION

Upgrade diskettes for AMS-T_EX and AMSF_on_ts will be available to users of version 2.0 free through February, with a shipping charge of \$8.00.

Everything You Need At One Low Price...

Announcing the New PCT_EX Systems!

You can now receive a new PC T_EX System, which includes PC T_EX/386 plus a full set of printer drivers, complete with everything you need to create the highest quality typeset documents possible using a PC, all at one low price. We offer a **20% Discount to TUG Members**. Here are your choices:

The PC T_EX System for Laser Printers Includes:

- PC T_EX
- PC T_EX/386
- PTI View
- PTI Laser/HP
- PTI Laser/PS
- PTI Jet
- CM 300dpi Fonts

Retail: \$599

TUG Members: \$479

The Big PC T_EX System for Laser Printers Includes:

- PC T_EX
- Big PC T_EX/386
- PTI View
- PTI Laser/HP
- PTI Laser/PS
- PTI Jet
- CM 300dpi Fonts

Retail: \$699

TUG Members: \$559

The PC T_EX System for Dot Matrix Printers Includes:

- PC T_EX
- PC T_EX/386
- PTI View
- PTI Dot/FX
- PTI Dot/LQ
- CM 240dpi & 180dpi Fonts

Retail: \$499

TUG Members: \$399

Upgrade your Current Products and Get a Full Set of Printer Drivers, plus PCT_EX/386, for only \$195

For those of you who already own PC T_EX, PTI View, and at least one PTI Printer Driver, special System Upgrades* are available to you as follows:

PC T_EX Laser System Upgrade - \$195

Big PC T_EX Laser System Upgrade - \$245

PC T_EX Dot Matrix System Upgrade - \$175

One Stop Shopping from Personal T_EX, Inc.

We offer you a full range of T_EX products to meet your every need... including graphics programs, fonts, spell-checkers, text editors, and T_EX macros. IT'S A NEW FRONT-END
TO T_EX

AHH!...
WHAT YOU SEE IS
MATHEMATICS

Actual Screen Image

**It doesn't take a genius
to comprehend**

SCIENTIFIC™ word

In fact, it's created by the same scientists who brought you T³™, TCI Software Research Inc.

Scientific Word™ is the latest in PC word processing for Windows 3.0. The file storage format is T_EX. It's a full document editor, not a previewer. You compose and edit directly on the screen without being forced to think in T_EX.

Your input is mathematics, and your output is T_EX.

Discover the genius when you combine the power of T_EX with the simplicity of **Scientific Word™**.

To be a part of this exciting new discovery, contact TCI Software Research Inc. Call today, toll free **1-800-874-2383** for more information.

TeX Publishing Services

From the Basic

The American Mathematical Society can offer you a basic TeX publishing service. You provide the DVI file and we will produce typeset pages using an Autologic APS Micro-5 phototypesetter. The low cost is basic too: only \$5 per page for the first 100 pages; \$2.50 per page for additional pages, with a \$30 minimum. Quick turnaround is important to you and us ... a manuscript up to 500 pages can be back in your hands in just one week or less.

To the Complex

As a full service TeX publisher, you can look to the American Mathematical Society as a single source for all your publishing needs.

Macro-Writing	TeX Problem Solving	Autologic Fonts	Keyboarding
Art and Pasteup	Camera Work	Printing	Binding

For more information or to schedule a job, please contact Regina Girouard, American Mathematical Society, P.O. Box 6248, Providence, RI 02940 or call 401-455-4060 or 800-321-4AMS in the continental U.S.

VALUABLE ADDITIONS TO YOUR TeX TOOLBOX

CAPTURE

Capture graphics generated by CAD, circuit design, data plotters, and other application programs that support the LaserJet. Make LaserJet images compatible with TeX. Create pk files from pcl or pcx files. \$115.00

texpic

With texpic graphics package, you have the tools to integrate simple graphics—boxes, circles, ellipses, lines, arrows—into your TeX documents. Maintains output device independence. \$79.00

Voyager

Macros to produce viewgraphs quickly and easily using TeX. They provide format, indentation, font, and spacing control. Macros included to produce vertical and horizontal bar charts. \$25.00

Micro Programs Inc. 251 Jackson Ave. Syosset, NY 11791 (516) 921-1351

For T_EX Users

New Services and Prices from Computer Composition Corporation

We are pleased to announce the installation of several ***new output services*** now available to T_EX users:

1. High Resolution Laser Imaging (1200 dpi) from Postscript diskette files created on either Mac- or PC-based systems.
2. High Resolution Laser Imaging (960 dpi) from DVI magnetic tape or diskette files using a variety of typefaces in addition to the Computer Modern typeface family.
3. High quality laser page proofs at 480 dpi.
4. **NEW PRICING** for high resolution laser imaging:
 - a. From **Postscript text files** in volumes over 400 pages **\$2.00 per page**
 - b. From **Postscript text files** in volumes between 100 & 400 pages **\$2.25 per page**
 - c. From **Postscript text files** in volumes below 100 pages . . **\$2.40 per page**
 - d. From **DVI files** in volumes over 400 pages **\$2.15 per page**
 - e. From **DVI files** in volumes between 100 & 400 pages **\$2.30 per page**
 - f. From **DVI files** in volumes below 100 pages **\$2.45 per page**

NOTE: DEDUCT \$1.00 FROM THE ABOVE PRICES FOR HIGH QUALITY LASER PAGE PROOFS.

5. **All jobs shipped within 48 hours.**

Call or write for page samples or send us your file and we will image it on the output unit of your choice.
