

TUGBOAT

The Communications of the TeX Users Group

Volume 22, Number 1/2, March/June 2001

[T]hose who know only what words are *for* can hardly know what words *are*. I cannot find it within me to see them only as manipulable counters, though they are that; they seem, quite often, a parade of gorgeous animals muttering by, a caravan slouching off to Gutenberg or some equally imaginary place.

Paul West
The Secret Lives of Words (2000)
