The original woodblock prints are from the Herries Collection. They are by Hokusai from his *Thirty-six Views of Mount Fuji* first published in 1833. Usually Mount Fuiji is obvious but in some cases it is almost invisible in the far background.

The prints have been scanned and then reduced from their original *oban* size (approximately 9½ by 14½ inches) to fit.

The Herries Press, Kenilworth, 2018
