3.3 List of References

Note: The BibTeX style iptax.bst does not follow exactly the “Sample References” in the “Instructions for Authors”, but follows the lists of references in published articles (although the formatting slightly differs between articles).

4 Quotation Marks

The journal “International Tax and Public Finance” requires double quotes. You can get pretty (typographically correct) quotation marks by adding the commands \usepackage{csquotes} and \MakeOuterQuote{"} in your preamble and use the " sign for quotation marks in your text.
