The **author-title-terse** style

This style implements a terse author-title citation scheme suitable for both in-text citations and citations given in footnotes. It differs from the regular **author-title** style in that the title is only printed if the bibliography contains more than one work by the respective author or editor.

Additional package options

The **dashed** option

By default, this style replaces recurrent authors/editors in the bibliography by a dash so that items by the same author or editor are visually grouped. This feature is controlled by the package option `dashed`. Setting `dashed=false` in the preamble will disable this feature. The default setting is `dashed=true`.

\cite examples

Averroes
Aristotle, *Physics*
Aristotle, *Rhetoric*

\parencite examples

This is just filler text (Averroes).
This is just filler text (Aristotle, *Rhetoric*).

\parencite* examples

Aristotle shows that this is just filler text (*Rhetoric*).

\footcite examples

This is just filler text^[1]

\textcite examples

Aristotle (*Rhetoric*) shows that this is just filler text.
Aristotle (*Rhetoric*, p. 59) shows that this is just filler text.
Aristotle (see *Rhetoric*) shows that this is just filler text.
Aristotle (see *Rhetoric*, pp. 59–63) shows that this is just filler text.

\autocite examples

This is just filler text (Aristotle, *Rhetoric*).
Aristotle shows that this is just filler text (*Rhetoric*).
