# Drafts & Itemize Example

■ **Draft Mode:** The version date, typeset date, time, and page number appears in the footer if the `\Draft` command is included. To set the version date include the command `\SetVersionDate{...}`. Default is `\today`.

■ **Itemize:** This page is prepared with the normal itemize environment with the item ‘dingbats’ explicitly set by `\itemSquareLarge`. The fontsize default is the normalsize (25pt) but the text size can be changed with the use of the usual fontsize commands `\huge`, `\LARGE`, etc.

■ **Code:**

```
\begin{itemize}
  \itemSquareLarge {\Large Draft Mode:}\enspace ...
  \itemSquareLarge {\Large Itemize:}\enspace ...
  \itemSquareLarge {\Large \sl Code}\ \ ...
\end{itemize}
```

# Banner Strips

Just for fun: Other ways of putting strips in the text

`\bannerStrip{}` gives strip of size `\pagewidth`

## bannerStrip

`\bannertitle{}` gives strip of size `\textwidth`

## bannertitle

15

# Other Commands

Sections, subsections, and paragraphs headings are left justified<sup>1</sup>

■ *SlideSection* (pre-set to `\huge`)

Usage: `\SlideSection{...}\~\`

■ *SlideSubSection* (pre-set to `\LARGE`)

Usage: `\SlideSubSection{...}\~\`

■ *SlideSubSubSection* (pre-set to `\Large`)

Usage: `\SlideSubSubSection{...}\~\`

■ *SlideParagraph* (pre-set to `\large`)

Usage: `\SlideParagraph{...}`

<sup>1</sup>The commands on this page use preset colors for dingbats and section, subsection, and paragraph headings. Put `\~\` after the (sub)section heading to get text on a new line.
